¶ Thankesgiuing for the  
Queenes Maiesties safe  
deliuerance.

Oft gracious God  
and mercifull Father, of  
whose onely gift it doeth  
proceede, that mankinde  
is increased, and thy  
Kingdome vpon earth  
thereby enlarged: wee  
giue thee most humble  
and hearty thanks, that it hath pleased thee,  
of thy especiall fauour towards vs and this  
Lande, to preserue our vertuous Queene  
ANNE in her late paines and perill of childe-  
birth. Lord, thou hast made her a ioyful Mo-  
ther of many Children: Send downe, wee  
beseech thee, thy continuall blessings vpon  
Her, and the hopefull Issue of her wombe, as  
may bee most to the perpetuall ioy and com-  
fort of this Realme, and to the euerlasting  
praise and glory of thy Name, through Iesus  
Christ our Lord. Amen.

## Thankgiuing for the

¶ Or this.

**W**E humbly acknowledge O most gracious and louing Father, thy manifold mercies extended vnto vs in our dread Soueraigne. Thou hast crowned him with great ioy and gladnesse, in that thou hast often, and at this present made his noble Queene to be as the fruitfull vine, and the number of his Children like Oliue branches round about his table. Giue vs grace, O heauenly Father, duely to consider of thy great goodnesse declared vnto her and vs in this her happy deliuerance, and to yeeld thee acceptable thanks for the same, in the great Congregation, through Christ our Lord and onely Sauour.

¶ Or this.

**O** Eternall and onely wise God, that hast ordained, that we should be fearefully and wonderfully made: Our bones are not hid from thee, though we bee made secretly, and fashioned beneath in the earth: thine eyes do see our substance being yet vnperfitt, & in thy booke are all our members written. Wherefore we reioyce in feare and giue thee thanks in reuerence, that thy sauing health hath beene present day by day with our gracious Queene, both in the conception of her late borne Babe, and in her safe deliuerance. Thou hast multiplied our nation, and increased

led our ioy, wee reioyce before thee according to the ioy in hartiest, and as men reioice when they diuide the spoile. Accept, we beseech thee, this our sacrifice of praise and thanksgiuing, and continue thy manifold blessings vpon our dread Soueraigne, his vertuous Queen and the Royall Issue, as long as the Sunne and Moone endureth. Grant this, O Lord, for Iesus Christs sake our onely Mediatour and aduocate.

¶ Or this.

**A** Almighty God, who makest thy providence to appeare most evidently in the greatest dangers, at this time more especially in granting to our gracious Queene a safe, speedie and happy deliuerance from her late great labour and perill in Childe-birth: we reelde thee hearty thanks for this thy mercifull kindnesse, beseeching thee to continue her watchfull keeper both day and night, and to renew her former strength: that as she hath happily brought forth, so shee may comfortably bring vp this newe borne Babe, and may liue to see her a faithfull member of thy Church, and a ioyfull mother of children, to the glory of thy Name, through Iesus Christ our Lord.

**E**ternall God, whose power is perfected in  
weakenesse, we giue thee humble thanks  
for protecting our gracious Queene ANNE,  
in her late trauaile of Childe-birth, giuing  
her strength safely to bring forth her blessed  
Infant, whereby the Line of the Kings roy-  
all Progenie may be lengthened, the number  
of thy elect children multiplied, the ioy and  
comfort of this land more and more secured  
and increased, to the prayse and honour of thy  
glorious Name, through Iesus Christ our  
Lord, and onely Sauour.

**M**ost mighty God and gracious father,  
wee acknowledge both thy power and  
mercie, in that it hath pleased thee to deliuer  
our most noble Queen ANNE, from the feare-  
full paines and dangers of Child-birth, and to  
blesse her with an happy issue: we further be-  
seech thee of thy fatherly goodnesse, that thou  
wouldest giue thine Angels charge ouer her  
to strengthen her afresh, and prosper the work-  
manship of thine owne hands, in blessing this  
new borne Babe, that she may growe by as a
